

**Stromma:**

Robust vandal and weather-resistant IP65 rated modular lighting system offering continuous linear illumination. IP65 and rated to IK14 (100 joules) of impact resistance. Extruded aluminium body, opal polycarbonate diffuser panel (> 61% light transmission) utilising new high transmission material which helps prevent LED hot spots, provides uniform light output and has advanced UV resistance. LEDs, electronic DALI control gear and diffuser supplied in a sealed module that is removable, replaceable and upgradable. Tested to operate in ambient temperatures of up to 50°C (low output) and 40°C (high output). Efficacies of >108lm/W (LED low output) and >104lm/W (LED high output). Adaptable modular system which can be stand-alone, drop rod suspended, surface mounted or used in a recessed style with shadow gap (e.g. for metal plank ceilings), finished in matt silver polyester powder coat.
